CONSTRUCTION DETAILS

- 1. End (side) Panel Material $\frac{3}{4}$ " hardwood plywood veneer core—unfinished
Option $\frac{3}{4}$ " hardwood plywood veneer core—Finished
Option $\frac{3}{4}$ " hardwood plywood veneer core—Flushed Furniture End
Option $\frac{3}{4}$ " hardwood plywood veneer core—Flushed & Finished
- 2. Top/Bottom Material $\frac{1}{2}$ " hardwood plywood veneer core
- 3. Back Panel Material $\frac{1}{2}$ " hardwood plywood
Option $\frac{3}{4}$ " beaded back
Option $\frac{3}{4}$ " flush back
- 4. Interior Finish Natural birch melamine
Option Stained matching veneer
Option Natural maple veneer
- 5. Shelf Material $\frac{3}{4}$ " hardwood plywood
- 6. Base Cabinet Shelf Two-Thirds Depth
Option Full Depth
- 7. Drawers & Roll Trays $\frac{5}{8}$ " Birch, Dovetail Joinery
 Glides Soft close, full extension, under-mount
Option Walnut drawer boxes and roll trays
- 8. Face Frame Beaded or Flush
- 9. Door Hinges Concealed hinge with soft close, or full wrap finial hinge in five colors: Dark Oil Rubbed Bronze, Pewter, Matte Nickel, Black and Copper Bronze

FACE FRAME OPTIONS

All inset door styles are available with a Beaded or Flush face frame.

BEADED INSET FACE FRAME

Openings of face frame feature a bead.

FLUSH INSET FACE FRAME

Openings of face frame are square.

FINIAL HINGE COLORS

DRAWER HEADER OPTIONS

FIVE-PIECE DRAWER HEADER

Available on all inset door styles.

ROLLED PROFILED DRAWER HEADER

Available on the Allendale, Kingston, LaSalle, Montgomery and Rock Dale door styles.

SCOOPED PROFILED DRAWER HEADER

Available on the Dayton, Mesquite and Woodland door styles.

FURNITURE PEGS

This option gives rustic character to doors and drawers. A $\frac{3}{8}$ " square wooden peg is driven into a $\frac{3}{8}$ " diameter drill hole. The gaps between the peg and the hole are visible and are not filled. Single pegs (illustrated above) and double pegs are available. Available on all inset door styles.

THIS BUTLER'S PANTRY was accented with Mullion insert doors. The inserts are Clear glass. The butler's pantry was created with the LaSalle door style in Cherry finished in Chestnut with Ebony glaze. Shown in Flush inset with optional profiled drawer headers.

Delhi door style in Maple finished in Villa Pearl. Accented with the Dayton door style in Alder finished in Homestead Fog. Shown in Flush inset with standard slab drawer headers.

Our complete collection of Specialty Colors for inset cabinetry is shown below.

Fairfield door style in Maple finished in Villa Ivory. Shown in Flush inset with standard slab drawer header.

Delhi door style in Maple finished in Villa Mushroom. Shown in Flush inset with optional five-piece drawer header.

VILLA

The Villa finish results in a look that suggests brush strokes along the face of the doors and drawers, and any other finished part of the cabinetry. The color and brush stroke technique will vary from door to door and will blend throughout the cabinetry. Available on Maple door styles.

AMARETTO & BORDEAUX

Amaretto and Bordeaux are Black finishes with rounded corners, worn edges and light chain distressing. Additional worn areas on center panels and door frames expose golden butterscotch tones on the Amaretto finish and beautiful burgundy tones on the Bordeaux finish. Available on Maple door styles. Amaretto and Bordeaux can receive Old World Distressing, illustrated on page 27.

MORE CHOICES!

This icon indicates the finish can receive Old World Distressing, illustrated on page 27.

LICORICE

Licorice is a Black finish with rounded corners, worn edges and light chain distressing. Nickel glaze is applied to accent the door profiles. Available on Maple and Quarter Sawn Oak door styles.

LaGrange door style in Maple finished in Amaretto. Shown in Flush inset with standard slab drawer header.

LaGrange door style in Maple finished in Bordeaux. Shown in Flush inset with standard slab drawer header.

Athens door style in Maple finished in Licorice. Shown in Flush inset with standard slab drawer header.

SPECIALTY COLORS

CHATEAUX

Chateaux is created by randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. Patina is accomplished with **rounded corners, worn edges, knife cuts, worm holes, rasping, dips** and **light chain distressing** that we hand apply to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Chateaux colors are shown below. Chateaux is available on Cherry door styles.

HOMESTEAD

Several distressing techniques are applied randomly and heavily. Distressing marks are **rounded corners, worn edges, knife cuts, abundant worm holes, rasping, dips, light chain distressing** and **chiseling**. They are applied to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Homestead is available on Alder and Rustic Alder door styles.

Homestead Blueberry

NEW!

Delhi door style in Maple finished in Villa Pearl. Accented with the Dayton door style in Alder finished in Homestead Fog. Shown in Flush inset with standard slab drawer headers.

COTTAGE DISTRESSING

Cottage Distressing is a sweet, welcoming look created with rounded corners and worn edges. A third technique, light chain distressing, is optional. Glaze brings out the wood's unique texture, and a durable topcoat completes the process, protecting both the color and the marks.

Cottage Distressing is available on:

- Any Stain with Glaze combination. See page 22.
- Any Tinted Varnish with Glaze combination. See page 23.

Kingston door style in Maple finished in Marshmallow Cream with Chocolate glaze and Cottage Distressing. Shown in Flush inset with standard slab drawer header.

OLD WORLD DISTRESSING

Dayton door style in Maple finished in Peppercorn with Chocolate glaze and Old World Distressing. Shown in Flush inset with optional five-piece drawer header.

Dayton door style in Alder finished in Butterscotch with Chocolate glaze and Old World Distressing. Shown in Beaded inset with optional five-piece drawer header.

Old World Distressing blends your new cabinetry with today's popular distressed furniture pieces. Distressing techniques are randomly applied to the face of your cabinetry throughout the design. These techniques are:

1. rounded corners
2. rasping
3. dips
4. knife cuts
5. worm holes
6. worn edges
7. light chain distressing.

MORE CHOICES!

Look for this icon on pages 22–23 for color combinations that can receive Old World Distressing.

LaSalle door style in Cherry finished in Butterscotch with Chocolate glaze and Old World Distressing. Shown in Beaded inset with standard slab drawer header.

DISTRESSING ILLUSTRATED

Fieldstone Cabinetry uses several techniques to add character and appeal to cabinetry. They are illustrated on these two pages. All of our distressing marks are added by hand. There is no machine and there is no robot that can successfully duplicate what the eyes and hands of an artisan achieve through personal handling of the cabinetry.

CHISELING

Chiseling is used to create Homestead.

DIPS

Dips are used to create Chateaux and Homestead and they are included in Old World Distressing.

ROUNDED CORNERS

Rounded Corners are used to create Amaretto, Bordeaux, Chateaux, Homestead and Licorice. They are included in Cottage Distressing and Old World Distressing.

RUB THROUGH

Rub Through is used to create Amaretto and Bordeaux.

SPECKLING, DARK BROWN

Speckling is used to create Chateaux.

ARTISAN EFFECTS

KNIFE CUTS

Knife Cuts are used to create Chateaux and Homestead and they are included in Old World Distressing.

PADDING

Padding is used to create Chateaux.

RASPING

Rasping is used to create Chateaux and Homestead and it is included in Old World Distressing.

ABUNDANT WORM HOLES

Abundant Worm Holes are used to create Homestead.

WORM HOLES

Worm Holes are used to create Chateaux and are included in Old World Distressing.

WORN EDGES

Worn Edges are used to create Amaretto, Bordeaux, Chateaux, Homestead and Licorice. They are included in Cottage Distressing and Old World Distressing.

A LIGHT TOUCH

SPATTERING

Spattering is a dark stain, hand applied randomly to the cabinetry.

- Spattering on stain with glaze combinations is free of charge.
- Spattering on an unglazed stain is available on all species at an upcharge.

LIGHT CHAIN DISTRESSING

Light Chain Distressing is used to create Amaretto, Bordeaux, Chateaux, Homestead and Licorice. It is included in Cottage Distressing and Old World Distressing.

- Light chain distressing on Tinted Varnish with glaze combinations is free of charge.

Light chain distressing is available at an upcharge on:

- all stains on any wood type
- all stain with glaze combinations on any wood type
- all Tinted Varnish on Maple, Oak or Quarter Sawn Oak

CHERRY
Shown here in Natural.

LYPTUS
Shown here in Toffee.

MAPLE
Shown here in Natural.

**QUARTER SAWN
OAK**
Shown here in Natural.

WALNUT
Shown here in Natural.

ALDER is a softer wood with a fine straight grain and even texture. Color is light brown with yellow or reddish tinge, with little difference between heartwood and sapwood. Alder does not evolve in color or darken when exposed to light or heat as other woods do, and takes stains and finishes well. More than some of the other woods, care must be taken to avoid damage due to its softer nature. Some small tight knots can be found with standard Alder.

RUSTIC ALDER refers to the Rustic version of this wood type. Rustic Alder is characterized by knots, burls and mineral streaks found on center panels, stiles and rails of the door, and on the drawer headers, which could impact hardware placement. Knots will be sound and will be closed, but certain angles could show light through the knots. Glazing Rustic Alder will enhance these unique characteristics.

CHERRY displays a distinctive grain pattern and warm color. The color ranges from nearly white to dark reddish brown. Dark pockets, pin knots, and random streaks are common. More than most woods, Cherry will darken when exposed to light, especially in light stains. The more sun Cherry receives, the faster it will darken. This will be most evident in new wood and will slow as it ages.

LYPTUS is a hard, fine-grain hardwood with a rich, warm tone. Lyptus comes from fast-growing eucalyptus trees that are ready to be harvested within 14 to 16 years of planting. These trees are grown on non-tropical, certified plantations. Color variations can be extreme, but they are minimized when you choose a darker stain. More than most woods, Lyptus mellows and darkens with exposure to light. When Lyptus is stained in a dark color, it looks very much like mahogany.

MAPLE is a versatile hardwood with a fine, smooth grain. It varies in color from nearly white to a slightly reddish brown. Mineral or sugar streaks occur naturally in Maple and can vary from piece to piece. Variations will be more noticeable in lighter stains.

QUARTER SAWN OAK is milled at an angle of 60 to 90 degrees from the grain, allowing rays and flecks to become visible, giving the wood unique, often vintage, character and dimension.

WALNUT is a strong, stable American hardwood known for wide color variation. It ranges in color from creamy white to a medium purplish brown. Walnut cabinetry will have both flowing grain and straight grain. This combination is a treasured characteristic of Walnut, and is showcased when Walnut is finished in Natural. However, Walnut takes all available stains well. Walnut is a favorite choice for furniture and furniture grade cabinetry, such as Fieldstone Cabinetry.

FIELDSTONE CABINETRY IS ENVIRONMENTALLY RESPONSIBLE.

Fieldstone Cabinetry is a certified brand in the Kitchen Cabinet Manufacturers Association (KCMA) Environmental Stewardship Program. The program recognizes companies that demonstrate an ongoing commitment to sustainability including the use of environmentally responsible materials in cabinet products and minimized environmental impacts realized through recycling wastes and using low emission coatings. By achieving this certification, Fieldstone Cabinetry is going beyond minimum requirements and demonstrates leadership in growing a sustainable company.

Fieldstone Cabinetry is CARB II compliant and ESP certified.

Kitchen Cabinet Manufacturers Association Environmental Stewardship Program

All products impact the environment.

For ESP program criteria, visit kcma.org.

WARRANTY

Fieldstone Cabinetry's construction, materials and all finishes are covered by a Limited Lifetime Warranty.

CONSTRUCTION CONSIDERATIONS

Inset cabinetry has doors that are precisely "set into" the cabinet's face frame. We manufacture inset cabinetry with tight reveals and take great care to create square, true cabinets. When adding inset cabinetry to your home, consider:

1. Quality installation is a must. If cabinets are not installed properly, doors may appear warped even though they are not. Every homeowner should expect their walls and floors to have variations; a well-qualified installer can properly shim inset cabinetry so it does not become out of square.
2. Homeowners should be prepared to adjust their doors seasonally as temperatures change.
3. Wall, wall base and utility wall inset cabinets are 12" deep. The standard inside storage dimension is 10 $\frac{3}{4}$ ". Unless the cabinet is modified to a greater depth, the cabinet will not accommodate oversized plates or dinnerware.

ARTISAN EFFECTS

Artisan Effects are illustrated on pages 28–29.

Specialty Colors have characteristics that cannot be captured on a color chip, so color chips are not available in Amaretto, Antiquity, Bordeaux, Chateaux, Homestead, Licorice and Villa. Request a door sample to view these unique, beautiful colors.

Specialty Colors are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

STAIN

A stain is a basic yet substantial finish that adds color to wood while revealing the beauty of the grain. The wood type affects the color of the stain, so the same stain will look different on each wood type. In some cases, the difference is dramatic. For the richest, most consistent color coverage, we apply the stain and then hand rub it into the wood. There are no machine shortcuts: elbow grease is the only way to coax the luster from stained wood.

TINTED VARNISH

The best way to describe Tinted Varnish is to say it gives cabinetry a paint-like finish. However, our Tinted Varnish is much more durable than paint. Throughout the country, this type of finish is also called “enamel” or “opaque”. Tinted Varnish is available on Maple and Quarter Sawn Oak cabinetry, and each wood yields a different look. The grain of Maple wood is concealed by Tinted Varnish and the grain of Quarter Sawn Oak shows through Tinted Varnish.

GLAZE

Fieldstone Cabinetry has four glaze colors: Chocolate, Ebony, Latté and Nickel. Glazes are available to go over both stains and Tinted Varnishes. We apply the glaze by hand and then wipe it off by hand. When our craftsman wipes off the glaze, he or she can best use the glaze to define the details in that particular kitchen. The profiles on a door and drawer, and other details on cabinetry, such as corbels, rosettes or shells, are stunning when glazed. We glaze every part of your cabinetry by hand—doors, drawers, moulding and panels.

OPTIONS FOR STANDARD PALETTE COLORS

The standard palettes for Stain and Tinted Varnish are shown on pages 22–23.

Is your color a Stain?

Fieldstone Cabinetry is CARB II compliant and ESP certified.

Kitchen Cabinet Manufacturers Association Environmental Stewardship Program

All products impact the environment.

For ESP program criteria, visit www.kcma.org.

American Craftsmanship

Manufactured in Sioux Falls, South Dakota from domestic and global components.

Fieldstone Cabinetry is a Norcraft Companies brand. Norcraft Companies is part of the MasterBrand Cabinets Family.

Dealers, we have printed the price column for each door style in this brochure. You'll find it under each door, in the last row of information.

Price columns don't change often, but they do change, so when you prepare a quote, always check the current Door Column Pricing. This document is available on the Dealer Only Website. Price columns in this brochure are for quick comparison ONLY.

This brochure includes these recent introductions: Bottle Green, Carbon, Currant, Moon Bay, Portabella, Sage, Simply White, Villa Breeze Ebony, Villa Capri Ebony, Villa Marshmallow Nickel, Wild Honey and Wings finishes; and Adair, Annapolis, Barrett, Cameron, Claiborne, Eva, Livingston, Reinbeck, Rutledge, Terrace and Vincent door styles. This brochure was printed in October 2020.

Accuracy of all reprinted color is subject to printing limitations. Please bear in mind that variation is inherent in wood, and actual finishes may differ substantially from what you see here.

As we continually seek to improve materials and production methods, Fieldstone Cabinetry reserves the right to change specifications, offerings or designs without notice.

DESIGN CREDITS

FRONT AND BACK COVER *This cabinetry was designed by Jessica Sybrant, a designer on staff at Arrow Cabinet Gallery, a Fieldstone Cabinetry dealer in Woodbury, Minnesota.*
